

FORM 5
COMPUTER SYSTEM INVENTORY

Department/Division/Unit: _____

Respondent(s): _____

This form should be used to summarize information about all computer systems (PCs, mid-range systems, workstations/servers, mainframes) that your agency uses to store and process geographically related data. This form should be filled out by staff who are knowledgeable about computer systems in your Department or Division. This form has sufficient space to describe three computer platforms. **Please use additional forms if necessary.**
